EDUCATION

MICHIGAN STATE UNIVERSITY

Bachelor of Science in Horticulture - Landscape Design, Construction, & Management Concentration

Results-driven web developer with a strong track record of delivering high-impact digital solutions for federal agencies, municipalities, and businesses. From architecting the SBA's Business Search API to leading award-winning COVID-19 response sites, I build performant, accessible, and scalable web apps.

EXPERIENCE

Web Developer, Nicholas Calderone, llc | 2019-Present

- Architected the Small Business Administration's Business Search API, which integrated multiple MeiliSearch indexes and over 3 million records, resulting in a 70%+ reduction in search times.
- Led development of Pitkin County's COVID-19 response website, delivering real-time updates, multilingual support, and critical public health resources to over 100,000 monthly users—recognized for excellence by the U.S. Center for Digital Government Awards.
- Successfully delivered numerous React prototypes for government clients including a 311 non-emergency reporting tool for the City of Cary, NC which included dynamic multi-step forms and seamless mobile app integration.
- Led development of an accessible, bilingual website for a county telecommunications department, enabling residents to report service outages and access broadband and translator resources.
- Rebuilt and optimized legacy code across multiple municipal websites to bring them into compliance with Title II of the Americans with Disabilities Act.

AWARDS

2021 GovX Experience Awards - Overall County Government Experience Finalist for the Pitkin County COVID-19 Response & Recovery website
